

MAGLOCK MPS44 Non-Contact Switch | IP68 Rated | Stainless Steel | by Allen-Bradley

Technical Specifications

- Operating Temperature: -20 to 40°C
- Ingress Protection: IP68
- Material: Stainless Steel
- Supply Voltage: 150 V AC at 50 Hz, 250 V DC
- Dimensions (H x L x W): 30mm x 100mm x 60mm
- Weight: 1.2 kg

Key Features

- Non-contact switch operation for enhanced durability
- Stainless steel construction for corrosion resistance
- IP68 rated for protection against dust and water ingress
- Operates within temperature range of -20 to 40°C
- Supports supply voltage of 150 V AC at 50 Hz and 250 V DC

Professional Installation Requirements

- Installation should be performed by qualified personnel familiar with industrial electrical safety standards.

Applications

- Industrial automation and control systems
- Security and access control systems
- Machinery safety interlocks

Standards & Compliance

- AS/NZS 4801 – Occupational Health & Safety Management Systems

Environmental Benefits

- Non-contact operation reduces wear and tear, extending product life and reducing waste
- Stainless steel materials are durable and recyclable

Warranty Information

Includes Radwell 2-year warranty; factory warranty does not apply.
