## INTRODUCING

# The Personnel Cleaning Station

### Personnel Cleaning Station

Part Number: CS3000

## Safe Personnel Cleaning With Compressed Air!

- Proprietary vacuum technology cleans workers quickly and effectively
- Removes dust, powders, and particulates from clothing and skin
- Rugged polyethylene construction
- OSHA compliant

Running off standard shop compressed air, the Personnel Cleaning Station pairs a proprietary, on-demand air-agitator brush attachment with a high-efficiency pneumatic vacuum. Thumb-switch activated, the air-agitator loosens and lifts particles airborne where the vacuum sucks them away safely and effectively. With no motor to burn out, the Personnel Cleaning Station is virtually maintenance-free. Vertical Mounting System (VMS) mounts on any vertical surface, saving valuable factory floor space.

### KEY FEATURES

- 5.5 gallon, static conductive polyethylene container
- Standard cartridge filter (77% efficient @ 0.8 microns)
- Static conductive, air-agitator brush attachment
- Pre-drilled, steel vertical mounting plate
- 1 1/4" ID x 5' static conductive vacuum hose
- 3/8" ID x 20' static conductive air hose
- Shutoff valve with 3/8" FNPT inlet
