TBP BLACK NAUTICAL THERMOMETER

OVERVIEW

TBP black nautical thermometer, on black aluminium dial that will allow you to have a safe navigation. It is also designed to withstand maritime conditions such as exposure to salt water, shock and vibration. It is an essential nautical instrument for those who venture out into the vast and ever-changing ocean. Its usefulness transcends mere time measurement; it is a reliable ally that offers a range of crucial benefits to sailors and lovers of the sea.

These instruments are suitable for both indoor and outdoor installation. And for commercial vessels, these instruments can form a robust set of the four traditional instruments: ship's clock, room radio clock, barometer and clinometer.
