OFFERING THE FIT AND COMFORT ELECTRICAL WORKERS DESIRE WHILE DELIVERING THE SAFETY AND PROTECTION THEY NEED.

To ensure gloves are fit for use they must be maintained as per ASTM F496-08. End users should conduct daily visual inspections. The interval between date of issue and re-tests shall not exceed 6 months.

Re-testing example:

Gloves with an original manufacturing test date of 01 Jan 2015 can be stored in full electrical compliance until 31 Dec 2015 and may be issued for use at any time within that 12 month period. If the gloves are issued for use at any time in the first year from the date of the original manufacturer's test, the user has a maximum of 6 months in service to remain compliant within the standard. Any unissued gloves that have not been tested within twelve months of the original manufacturing test date must be re-tested before issue.
